

ONLINE TRAINING FOR VOLUNTEERS

Pilgrim Lodge and Horton Center are sacred spaces for refuge, hope, and safety. We want to do everything we can to keep our campers safe and to ensure the sanctuary of our camps. The Insurance Board of the United Church of Christ has partnered with Armatus, a company that provides online training courses to churches and camps on child abuse and bullying. We are requiring all of our volunteers who work with youth to take this training. Once you submit this completed form, you will be set up with an online account so that you can access this training. You will be contacted by email after you are in the system with the link and instructions on how to complete the training. Thank you!
